Starline®
A brand of legrand®

On-Site Installation Support

Starline's on-site installation service makes installing your busway simple and stress-free.

Our installation support starts with scheduling a preliminary trip to the installation site. During the initial visit, our Certified Technicians will train your installing contractor and develop a thorough installation and commissioning plan.

After completing the training, your installing contractor will have a direct line of communication with our installation experts. Our experts can help answer questions and provide hands-on guidance as needed.

Opting for Starline's installation support helps mitigate the installation risk and reduces the learning curve typically associated with new installations.

FEATURES

- Contractor training prior to installation
- Expert consulting during installation
- Customized commissioning plan

BENEFITS

- Facilitates timely project completion
- Minimizes installation time and eliminates costly delays
- Ensures safety, quality, and functionality
