Starline®
A brand of legrand®

Preventative Maintenance Plans and IR Scanning

Although Starline busway is expertly designed to require less maintenance, NETA ATS, and MTS guidelines recommend conducting annual inspections and health assessments on all critical equipment. Yearly preventative maintenance helps to ensure your system's long-term reliability and safety.

Starline's FLIR Certified Technicians will create a custom preventative maintenance plan for your specific needs.

Our Certified Technicians will work to:

- Identify thermal anomalies
- Extend equipment lifecycle
- Ensure optimal system performance
- Improve facility safety and operational sustainability

Upon completion of your preventative maintenance plan, you may be eligible to extend your product warranty.

FEATURES

- Inspect and thermally scan critical joints and connections
- Replace damaged components
- Generate detailed thermography report

BENEFITS

- Extend equipment lifecycle
- Optimize system performance
- Mitigate risk of downtime
- Increase warranties on equipment
